

Nail Gun (Track Master)

Applications

- Fixing to timber and steel
- Fixing partitioning track to concrete and steel
- Threaded pin applications to concrete and steel
- Fixing brick ties

Specifications

- Weight: 2.5kg
- Impact Force: 300J
- Fixing Capacity:
 - timber to concrete: 60mm,
 - timber to steel: 50mm,
 - metal to concrete: 3mm,
 - metal to steel: 3mm

Operation and Basic Maintenance tips

- Clean filter every 500 shots.
- Do not put hands over the filters during operation.

Leveling Equipment

DUMPY LEVEL

Magnification

AM32 - 32X

Standard Deviation for 1km
double-run leveling

+/- 1.0mm

Objective Aperture

40mm

Setting Accuracy

+/- 0.3"

Resolution Power

3"

Image of Telescope

Erect

Working Range

DUAL DUMPING™ (AIR DAMPING + MAGNETDAMPING)

Multiplication Constant

100

Additive Constant

0

Sensitivity of Circular Level

8'2mm
