

EYE PROTECTION

Eye protection must be worn whilst using this piece of equipment.

MASK

This equipment creates dust. Wear suitable mask.

EAR PROTECTORS

High noise levels are generated from use of this equipment.

SAFETY FOOTWARE

Industrial footware with steel toecaps should be worn whilst using this equipment.

PROTECTIVE GLOVES

Hand protection must be worn whilst using this piece of equipment.

SAFETY HELMET

Always wear on construction sites and with this piece of equipment.

DIAMOND WHEEL

Diamond products are available for this machine. (Longer working life)

POWER BREAKER RCD UNITS

Recommended when using electrical equipment. Protects against electric shock.

VIBRATION PROTECTION

Regular use of hand-arm equipment may cause injury and disability.

SAFETY HARNESS

To be worn on all scaffolding and ladders.

This HANDY GUIDE has been specially compiled to give you brief product and user knowledge of machines available from [©]Coastal Hire[©]. All machinery is dangerous. BE CAREFUL!!

PROPER CLOTHING

Clothing must be sturdy and snug-fitting, but allow complete freedom of movement. Avoid loose-fitting jackets, scarves, neckties, jewellery, flared or cuffed pants, unconfined long hair or anything that could become entangled in the machine. Wear overalls with a reinforced cut retardant insert.

Protect your hands with gloves when handling a machine. Heavy-duty, nonslip gloves improve your grip and protect your hands.

Good footwear is most important in chain saw work. Wear sturdy boots with nonslip soles. Steel-toed safety boots are recommended.

To reduce the risk of injury to your eyes never operate a machine unless wearing goggles or properly fitting safety glasses. Always wear ear plugs or ear muffers to protect your hearing.

WARNING!

Prolonged use of machinery exposes the operator to vibrations which may produce whitefinger disease (Raynauds's phenomenon) or carpal tunnel syndrome. These conditions reduce the hands' ability to feel and regulate temperature, produce numbness and burning sensations and may cause nerve and circulation damage and tissue necrosis.

Anti-vibration systems and heated handles do not guarantee that you will not sustain whitefinger disease or carpal tunnel syndrome. Therefore, continual and regular users should monitor closely the condition of their hands and fingers.

If any of the above symptoms appear, seek medical advice immediately.
